ALL HAIL TO THE FLAG!

1. See the Star-spangled Banner afloat in the sun!
Her name is "Old Glory," by martyr blood won,
Of fathers, whose bodies have gone to the grave,
But whose spirit yet lives in the land of the brave.

Chorus

All hail to the Flag, as it's borne along
By united people whom Freedom made strong.
We'll be true to our Nation, whate'er it cost,
And bring the world Peace that shall never be lost.

2. With love for our Country, we loyally stand
All eager to serve her on sea or on land,
For our great family would have all the world know
That America's ready to meet any foe.

Chorus

3. We're proud of our President, Government, all,
Who have opened their hearts to Humanity's call
For help, from the trenches, far over the wave,
To conquer the tyrant who all would enslave.

Chorus

4. Our banner unfurled is for God and the right,
'Twill lead our brave army in Europe to fight
Until, with her Allies, Old Glory shall wave
O'er nations made free and o'er Tyranny's grave.
